

MORE THAN JUST AN AGENCY

We are an established, UK-based business with Fabrication, Erection, Project Management and Commissioning capabilities operating from a state-of-the-art Hull facility. We operate within various industries including Power, Process, Construction and Energy and are able to provide local and directly employed personnel who are highly trained, qualified and experienced across a range of skilled and specialist trades. With vast experience in stringent process and safety critical sectors and with dedicated staff retained over a number of years, we ensure a quality and professional service to all of your project requirements.
